OTMS
Contact us today to learn more about the benefits that your business can obtain with our solutions for employees and human resources

Use OTMS to solve your employee time tracking challenges

It is not an easy task to manage and track your employee's time and attendance and at the end of the day, you cannot guarantee an error free job. Online Time Management Software (OTMS) is a robust solution for tracking employee's time and attendance. It is designed to easily coexist with SAP system without any disruption

OTMS Features Include:

OTMS has several features to manage employee's time and attendance to reduce the burden on personnel administration. Here are some advantages

Instant visibility on Employee's Time
Real-time monitoring enables admins and supervisors to get an instant visibility on all punches employees perform on the system

Multiple Locations
Track employee's time from multiple locations. Our solution receives employee's data from multiple locations and sends it to a centralized data center

Compatibility with a wide range of data collection devices
OTMS is a cost effective interface that is uniquely designed to work with any data collection method

High Uptime and System availability
High system uptime, and ability to collect data even when the system is offline

Easy Data Flow with SAP system
OTMS enables the download of the master data from SAP to the terminal and the transfer of time data collected to SAP system. The data flow in both directions is completely automated and does not require any interaction from the user

Payroll Integration
OTMS can quickly pay for itself through elimination of various manual and error-prone processes and avoid employee's overpayment. You can accurately transmit timesheet data to SAP Time Management module and then the data is directly transmitted to the SAP Payroll module to automatically calculate lateness, overtime and a lot more

Easy Reporting
The system helps obtain analytical reports and detailed information to help manage and organize employee working hours

What OTMS Can Offer?

- Easy and quick implementation

- Easy access to employee's time data Improve workforce productivity by reducing manual administrative effort

- Massive scalability that can support companies of any size with multiple locations

- Online plausibility checks for correctness of data entered on the terminals

- Decrease payroll preparation time
