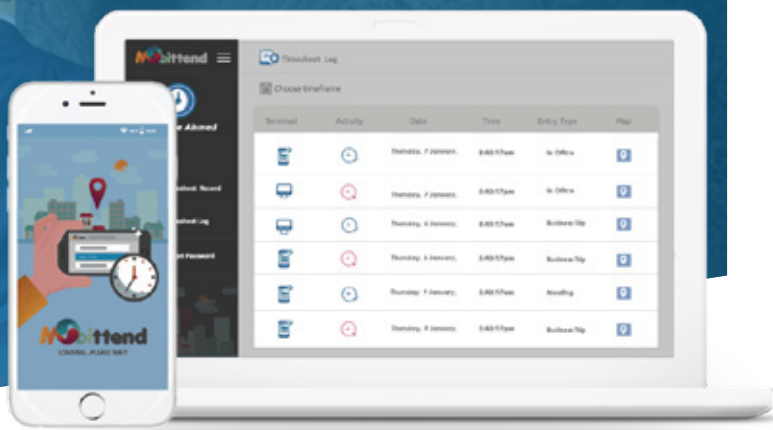
Manage your employee's time **more efficiently and in real-time**

Today's employees have a different way of working, they are no longer tied to one place. Companies with employees always on the move have difficulties in monitoring their employee's time and attendance. This simply explains the growing need for using mobile devices in the workplaces. The traditional old method proved to be inefficient, allowing time theft, administrative errors and inaccurate time reports. For that reason, ECS designed a mobile time tracking application "Mobittend" - enabling employees to manage their own timesheet data from their mobile devices anywhere at anytime which saves time and increases accuracy.



Mobittend Features Include:

Whether you're having employees working in multiple locations, at the office, or out in the field, Mobittend app provides you and your employees an easy way to track accurate time and help you process an efficient payroll process, Here are some advantages:

Mobile Timesheet
Simply track the time and attendance of your remote resources by using mobile devices

Support various platforms
Mobittend provides a seamless experience across almost all mobile devices – Smartphones, Tablets, Desktops, and Laptops and various platforms including iOS, Android, and Windows. This gives flexibility to all users to use their own mobile devices and reduce TCO

GPS Tracking
This feature allows capturing the exact locations of employees when they enter their time data through the GPS. This ensures that every employee is located in the right place

Custom notifications
Enable mobile timesheet alerts via mobile push notification or emails

Check historical logs
Employees can check their historical logs and their time information directly from their mobile devices at anytime

Seamless integration and full automation
Gain a real-time and automated data flow from a wide range of mobile devices to a centralized database

Easy Reporting
The system helps obtain analytical reports and detailed information to help manage and organize employee working hours

Simple and intuitive interface
Mobittend provides great user experience, With a simple and intuitive interface. employees simply login with their username and password and simply perform the action they want
